## EXPERIENCE

### Front End Developer Intern
**Stream Hatchet**                                           **June 2021 - August 2021, Remote**
• Built a cross platform mobile application for Stream Hatchet using Adalo.

• Created plugins using React Native in order to achieve the desired functionality.

• Collaborated with the other intern using Github Desktop.

### IT Co-Op
**Tulare City Schools**                                        **August 2020 - August 2021, Tulare**
• Repaired more than a 100 broken Acer Chromebooks every month.

## PROJECTS

### Web and App Developemnt
August 2019
• In the process of completing a web development course on Udemy, enabling me to create beautiful websites.

• Created over 10 apps while taking an app development course. Learned how to incorporate APIs and databases in applications.

• Created my own reminder app using Realm to store all of the reminders.

• Created a racial disparities website that highlights inequality statistics in the United States.
